OUR STORY

WHY SKIZIC SETUPS?

Your construction project is more than just bricks and

Your construction project is more than just bricks and concrete—it is the image and structure of the community. Working directly with manufacturers, we expedite access to a massive and competitive selection of building materials.

We organize, schedule, and mobilize equipment, materials, and personnel to manage construction projects and material supply. Our legacy is the community centers, business/social services facilities, burn units, energy efficiency renovations, modular/package builds, and RTM homes that were built while using as much local talent as possible.

Our commitment is working hand-in-hand with Owners, Architects, Engineers, Sub-Trades, and Government to fasten ideas into reality. We connect unique build projects like RTMs and Home Packages with northern construction knowledge and proven professionals.

- ✓ HIGH QUALITY NORTHERN CONSTRUCTION
- ✓ 21 YEARS OF EXPERIENCE & COMMUNICATION
- ✓ IN-DEPTH DOCUMENTATION & COST VERIFICATION
- ✓ RESULT FOCUSED TEAM WITH ACCOUNTABILITY
